

Establishment of Strategic Warning Staff (U) 25X1A9a

## REMARKS

1. (C) PURPOSE: To ensure that all Directorates involved in abolishing the Watch Committee and the National Indications Center (NIC) and the establishment of the interagency Strategic Warning Staff provide the necessary support to accomplish the transition.
2. (C) DISCUSSION: The assimilation of the NIC functions, acquisition of an interagency staff of warning analysts, conversion of present DIA spaces, and acquisition of support personnel and equipment will involve several DIA Directorates. Although the DI intends to accomplish most of the transition requirements, the assistance of other Directorates will be required.
3. (U) RECOMMENDATION: That the DR sign and forward the proposed memorandum.
